Problem Statement

Rural entrepreneurs in Sabah remain digitally underserved despite **94.4% reported internet coverage**.

In reality, digital access is still limited specifically in SABAH because **only 23% of SMEs use e-commerce**, making it one of the lowest digital adoption rates in Malaysia.

enhance their performance. According to the Malaysian Communications and Multimedia Commission (MCMC)'s (2018) **e-commerce consumer study reports an average e-commerce adoption rate** of 51.2 per cent in Malaysia. However, the survey indicates that e-commerce adoption rates vary across states, with Selangor at 40 per cent, W.P. Kuala Lumpur at 38 per cent, Sarawak at 24 per cent, and **Sabah at 23 per cent**. Thus, Sabah and Sarawak have two of Malaysia's lowest e-commerce adoption rates.

Internet coverage in Sabah populated areas at **94.4%**

SABAH & SARAWAK

Wednesday, 16 Apr 2025
5:04 PM MYT

KOTA KINABALU: Internet and communication coverage in populated areas across Sabah has reached 94.4% as of Jan 31, the State Legislative Assembly was told on Wednesday.

TARGET USER

Underserved Rural Micro-Entrepreneur

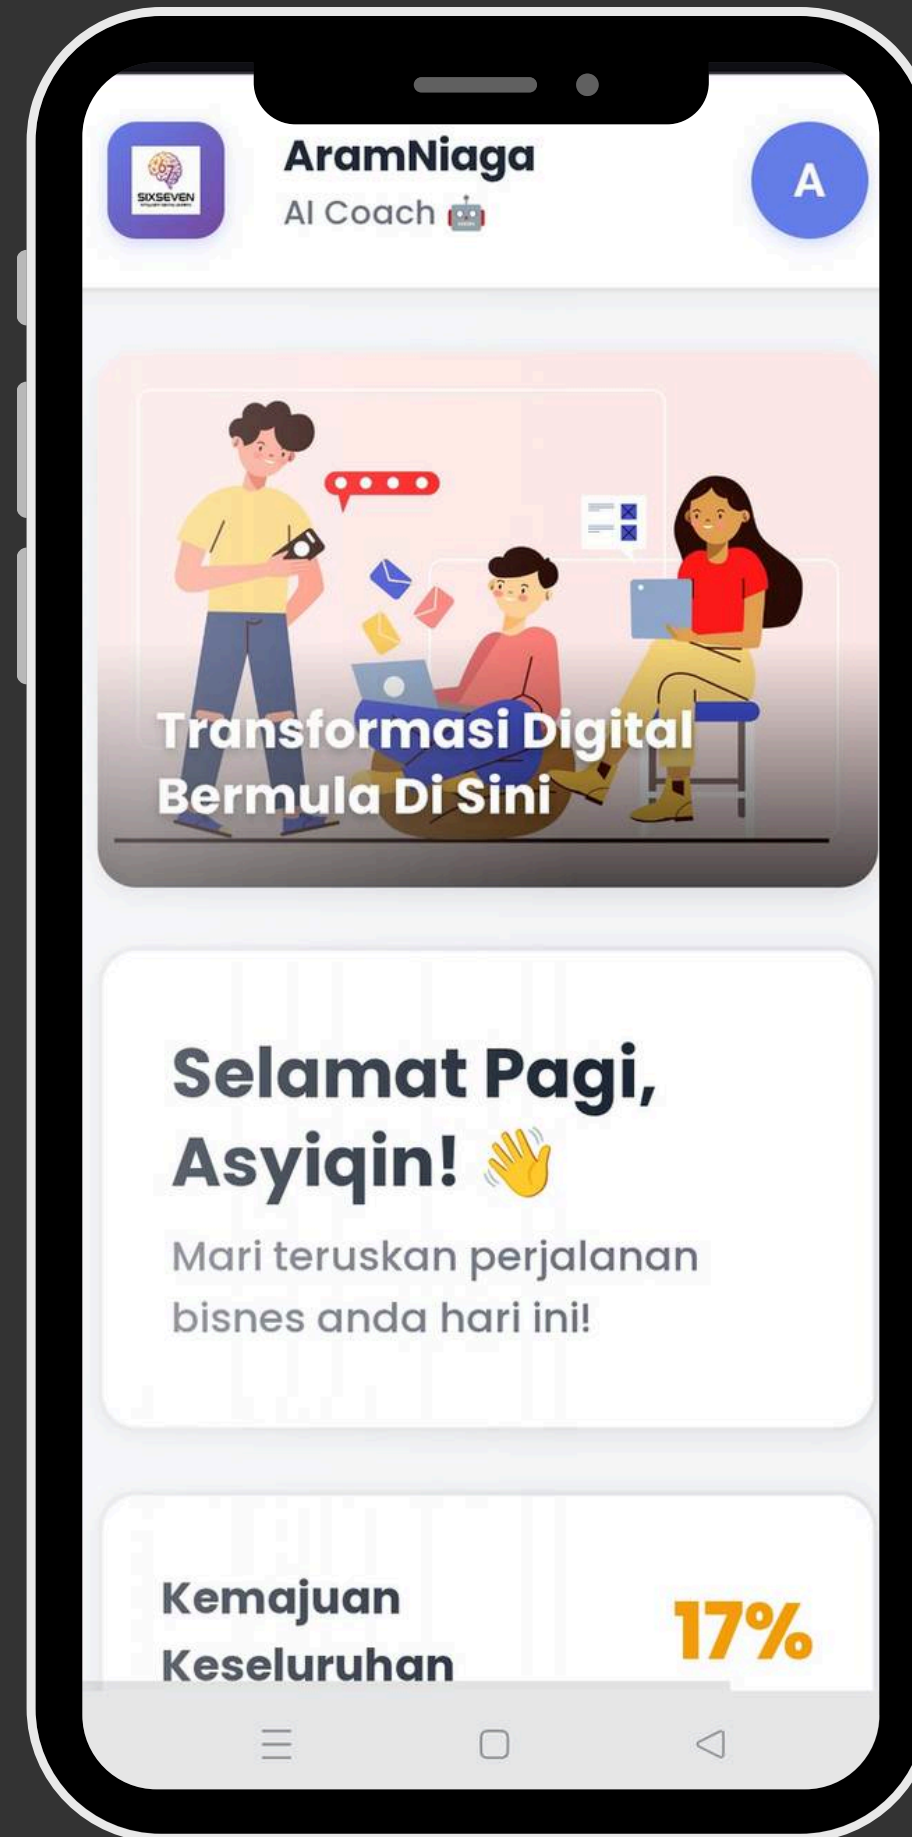

- **40–60 years old** (Middle-aged).
- **Rural areas** (Luar Bandar) in Sabah.
- **Traditional small business owners** (e.g., Warung, Kerepek seller, Tailor, Home-based food seller).
- **Low / "Zero Tech"**. They have a smartphone (mostly for WhatsApp/Facebook scrolling) but are intimidated by "business tools" and digital marketing jargon.
- **Speak Strictly Bahasa Malaysia.**

The solution is....

Introducing the AramNiaga App

An AI mobile app delivers daily 15-minute digital marketing tasks in Bahasa Malaysia, closing Sabah's 77% digital adoption gap by making social media mastery practical and achievable for middle-aged, non-tech-savvy business owners.

Our AI Features

how our 7-days coaching system going to solve the problems

1. COMPANY BIODATA GENERATOR

Input business details via text. AI generates 3 professional Instagram bio options in Bahasa Malaysia instantly.

“Saya tak pandai lah nak letak biodata dengan ayat sesuai..”

2. PHOTO COPYWRITING AI

Upload product photo. AI analyzes image, creates engaging captions and hashtags.

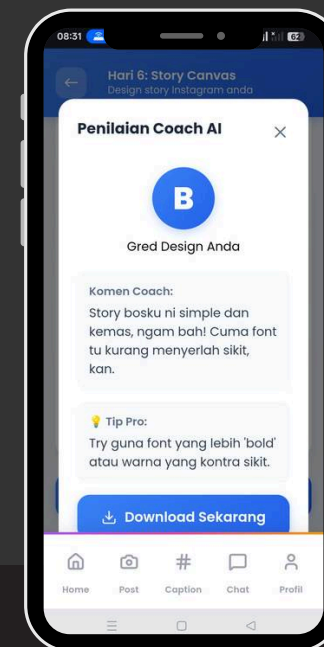

“Macam mana nak letak caption menarik ni....”

3. AI CONTENT COACH & STUDIO

Users design; AI refines. A flexible editor for full creative control, paired with an instant 'AI Quality Check' that graded your content and offers tips to boost reach before you publish.

“How to make my post SEEN by the target audience?”

4. CUSTOMER SERVICE COACH AI

24/7 conversational AI assistant in Bahasa Malaysia. Acting as a customer to train the user in various given scenario how to handle them.

“Macam mana bah cara mau handle customer in right way ni?”

UNIQUE VALUE PROPOSITION (UVP)

01.

Localized "Cikgu" AI

A proactive digital coach fully trained in Bahasa Malaysia including “Bahasa Pasar” that guides users without requiring complex prompting or technical skills.

02.

Structured "Day-by-Day" Roadmap

A locked, linear journey (Day 1 to Day 7) that prevents overwhelm by forcing users to master one specific mission before unlocking the next.

03.

Result-Based Gamification

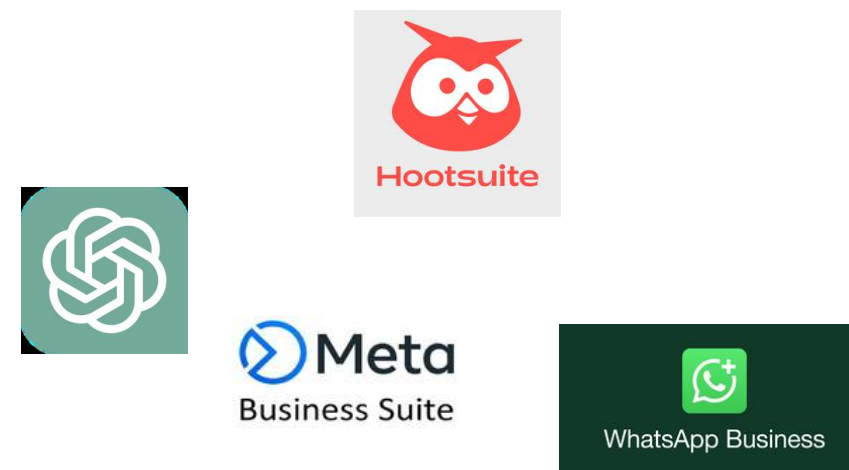

Drives discipline through '**Earned Streaks**' by awarding only for completed tasks and validates their journey with a **digital Completion Certificate** at the end of the course.

Next Steps

IMPACT AND USEFULNESS

SOCIAL

- **Increases digital literacy** among rural Sabah communities
- **Supports income uplift** (SDG 1: No Poverty)
- **Fully in Bahasa Malaysia** → **inclusive for non-English users**
- **Empowers women micro-entrepreneurs**
- **Closes the urban-rural digital gap.**

ECONOMIC

- **Expands market access for 25,000+ rural microbusinesses**, significantly improving business visibility and increasing sales.
- **Reduces the urban-rural income gap** and strengthens the local economy by stimulating rural spending.
- **Reduces training costs by replacing paid physical workshops with digital alternatives.**

ENVIRONMENT

- **Reduced travel for training** → **lower carbon emissions**
- **Less paper usage** → **digital-first marketing**

GOVERNMENT

- **Supports Sabah Digital Blueprint & national ESG goals**
- **Encourages microbusiness formalisation**
- **Ensures ethical & responsible AI usage**
